

COUNCIL WEEKLY UPDATE

December 1, 2022

PLANNING

General Plan Update (GPU) Phase 2 – The comment period for the recent GPU open house events has now closed. Considerable input from individual residents, community groups, and state agencies has been received. The input is being assembled and integrated into the draft General Plan elements. A summary of public comment will be posted to the project webpage (onwardoceanside.com) by December 15.

ENGINEERING

New Fire Station 1 – Onsite utility work and construction on the easterly retaining wall continued this week. Vertical construction has been pushed to January to allow time for the foundation and floor slabs to cure. Vertical construction may occur earlier if the correct strength is obtained in the foundations and floor slabs sooner than anticipated.

Oceanside Navigation Center (Shelter) – The following work occurred this week:

- Continued layout for new walls
- Continued electrical rough-in and relocating electrical panel
- Awarded construction contract for north-facing windows replacement
- Advertised for flooring, tile, steel, signage, and millwork
