

COUNCIL WEEKLY UPDATE

July 16, 2009

No Planning Commission public hearing items.

American Messaging Pager Antenna Project

Early this year, several staff members reported intermittent pager coverage within the downtown Oceanside area. Information Technologies coordinated with American Messaging to significantly boost the signal strength in the downtown area at no cost to the City. This has not only increased the coverage area, but has reduced transmission times of data to pagers. This is of significant importance to our public safety departments who received vital data from our Computer Aided Dispatch (CAD) system via pagers. The installation was completed on June 30, 2009. Since the completion of this installation, a significant increase in coverage has been reported.
