

## **COUNCIL WEEKLY UPDATE**

**December 7, 2007**

### **Planning Commission Meeting**

Listed below are the public hearing items that the Planning Commission reviewed and took action at their meeting on Monday, December 3, 2007:

Bayberry Parcel Map -- To subdivide a 0.96-acre site into three residential lots and to construct two homes on property located approximately 160 feet east of the terminus of Cassidy Street at Bayberry Drive. The Commission denied the project without prejudice by a vote 5-1 and the resolution will be considered at the December 17, 2007, Planning Commission meeting.

Eternal Hills Cemetery Expansion -- To allow an 18.16-acre expansion of the Eternal Hills Memorial Park Cemetery that will incorporate 17,800 new burial plots and seven community mausoleums, the addition of a fully developed 2.37-acre area into the project area, and the construction of a 1.0 plus-acre sedimentation pond near the northwest corner of property to correct existing erosion problems. As part of the overall project, a conservation easement will be dedicated over an approximately 66.46-acres of native habitat currently owned by the cemetery located north of Fire Mountain Road and west of El Camino Real at 1999 El Camino Real. The project has been modified based on comments received at a community meeting. The Commission approved the project by a 4-1 vote and adopted the resolution; call for review/appeal period ends on December 13, 2007.

South Pacific Street Property -- To demolish the existing residence and construct two single-family homes on two separate 0.6-acre lots located at 1722 South Pacific Street. This item was continued to the next Planning Commission meeting on December 17, 2007.

Oceanside Beach Restoration -- To permit the placing of 150,000 cubic yards per year of sand on the City of Oceanside's beaches over a five-year permit period. The placing of sand will occur from Foster Street to Kelly Street. This item was continued to the next Planning Commission meeting on December 17, 2007.

### **Sprinter**

As of Monday, December 10, NCTD will commence with the final phase of Sprinter pre-revenue operations. The intent of this training is to train operators to simulate actual revenue service, timings and schedule. The Sprinter schedule will entail 30 minute headways (in each direction) during the normal operating window (approximately 4:00 AM to 9:30 PM). This will mean that there will be multiple trains in the corridor at the same time.

This testing will take place along the entire Sprinter corridor, from Escondido Transit Center to Oceanside Transit Center. Although there has already been Sprinter vehicle

activity all the way to Oceanside, Monday will mark the first time full revenue operations, at full operational speed are simulated. Please note that this change will significantly increase the frequency of vehicles in all areas of Sprinter operations.

This change in vehicle activity may cause an increase in the number of calls and emails received by your staff and we would appreciate having them directed to the NCTD Web site [http://www.gonctd.com/sprinter\\_intro.htm](http://www.gonctd.com/sprinter_intro.htm) or the Sprinter project telephone hot line 760-599-8332. These emails and phone calls will be answered within one business day.
